

ROTARY DRUM BATCH MIXER

THE ANSWER FOR BREAKING UP A VARIETY OF MATERIALS

FAST, EFFICIENT MIXING, VIRTUALLY 100% DISCHARGE

The Scott Rotary Drum Batch Mixer mixes heavy, free-flowing materials quickly and efficiently. Its rugged construction and simple mixing action provide reliable performance for demanding industrial applications.

The drum's forward and reverse rotation, strategically angled baffle plates, and optional swing inlet-discharge door promote thorough material movement and consistent blending. This efficient design also ensures virtually 100% product discharge, helping reduce material buildup, product waste, and cleanup time between batches.

THE THREE E'S OF THE ROTARY DRUM MIXER

EFFICIENT MIX

High-intensity mixing for uniform results in less time.

ELIMINATES CONTAMINATION

Complete cleanout ensures product purity & safety.

EASY MAINTENANCE

Accessible design simplifies service and reduces downtime.

BUILT FOR RELIABILITY

- **DURABLE CONSTRUCTION** - Manufactured in carbon steel or stainless steel with the option of standard or food-grade finishes.
- **SANITARY & SAFE** - Bearings and seals do not come directly in contact with the material for easy cleaning.
- **OPERATOR SAFETY** - Special guards over trunnion wheels ensure greater safety while the mixer operates.
- **COMPLETE CLEANOUT** - Eliminates contamination between batches.
- **EASY MAINTENANCE** - All shafts and bearings are easily accessible.
- **VIRTUALLY 100% DISCHARGE** - Fast, efficient mixing of free-flowing materials with virtually 100% product discharge.

ROTARY DRUM BATCH MIXER

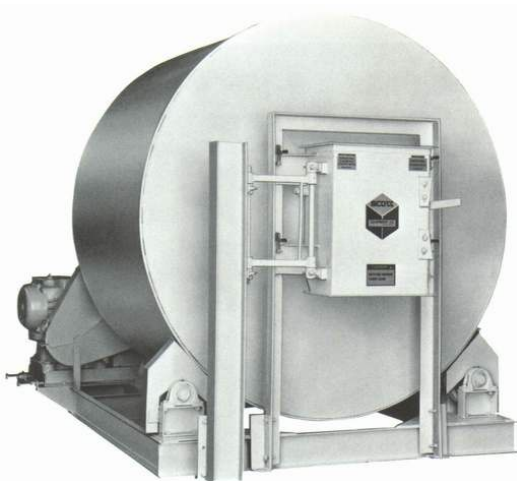

BUILT ON SCOTT EQUIPMENT'S TRADITION OF EXCELLENCE, THIS MIXER DELIVERS SIMPLE, EFFICIENT MIXING AND ELIMINATES COSTLY MAINTENANCE.

IDEAL APPLICATIONS

- Sand, cement, lime
- Plaster
- Animal premixes
- Bird Feed
- Spice blends
- Tea leaves
- Coffee beans
- Ground brake pads

COMMON INDUSTRIES

- Agriculture
- Beverage
- Construction materials
- Cement/Aggregate
- Animal feed
- Food

LET'S BUILD EQUIPMENT FOR YOUR PROCESS

Need a different size, material of construction, access configuration or process option? Scott Equipment can engineer a Rotary Drum Mixer around your specific application
